ABOUT US

Quality Leadership University is a private university founded in Panama in 1997. To this date, more than 3,000 Panamanians and professionals from around the world have culminated their Bachelor's and Master's degrees in six different areas, studying completely in Panama. Today, more than 1,500 students are enrolled in our Undergraduate and Graduate Programs, as well as in our English for Success and Executive Education programs.

Quality Leadership University has collaborative agreements for graduate and undergraduate academic programs with the following prestigious universities: **University of Louisville, Illinois State University, University of South Florida, Universidad de Chile y Universidad Politécnica de Madrid.**

Mission

To educate at the highest academic level more and better leaders and professionals who will actively contribute to the region's development.

To be highly recognized as one of the most important higher education institutions in developing professional and leadership talent for the region's corporations and organizations.

Vision

Values

- Leadership as a way of life
- Quality in all we do
- The highest academic level
- Transformational education
- Respect for diversity
- Passion for service
- Innovative differentiation

University of South Florida (USF) is a Preeminent State Research University that was recently ranked #44 among public universities and was named the fastest-rising university in America by U.S. News and World Report. USF is located in the Tampa Bay region. Tampa's thriving cultural, arts and business communities offer students a rich college experience both inside and outside the classroom. Students enjoy year-round beautiful weather with mild temperatures, plenty of

sun and some of the nation's best-loved beaches just a short drive away. USF offers more than 180 undergraduate majors and concentrations across 14 colleges. Campus amenities include exceptional on-campus residence halls, sports and recreation, numerous dining options, more than 600 student clubs and organizations, and much more. Over 39,000 students from more than 141 countries across the globe choose to study at USF.

How does it work?

QLU QUALITY LEADERSHIP UNIVERSITY

MEET OUR GRADUATES

Astrid Castellero

Co-Owner + Digital Strategy Director at The Digital Life, Digital Marketing Agency
 Bachelor in Business Administration with a concentration in Management, Towson University, 2014
 Magna Cum Laude
 The Oxford School, 2010

Along with my parents, I started my research during my H.S. Senior year and happened to be interested in QLU Business Administration - Management Program. Later that year, my high school took my class to visit QLU campus among other universities, and I instantly pictured myself studying there. I think of QLU as having education and opportunities without boundaries. The program they offered was very complete and with the option to continue my education in English and receive a diploma from the United States while studying in Panama was on top of my list. Studying in QLU was definitely the best decision for my undergraduate education. Thanks to QLU I got my first job in a multinational company during my junior year, worked there for up to 2.5 years starting as an intern up to becoming the Digital Marketing Leader for renowned brands in Central America and the Caribbean. Thanks to that experience I discovered this field is my passion and decided to start my own digital marketing business.

Luis Andrés Castillo Vásquez

Logistics and Compliance Manager at Golden Hill Ingredients LLC
 Finance Major and Entrepreneurship and Economics Minors, 2015
 Master of Business Administration, 2018
 Colegio San Agustín, 2011

I chose to study at QLU because of their 2+2 program. QLU provided me the best business education and opportunities among available in Panama. What is great about this program is taking all the Gen Ed classes in Panama which makes the process more accessible and, of course, obtaining the *in-state* tuition. Through my experience, I can say that Finance is a challenging but worthwhile program in the College of Business of University of Louisville. It provides great opportunities and the professors are the top of the school. It also gave me the best chance to continue my education and enroll in the MBA program. I obtained this through internship, thanks to the Board of Overseers Mentorship Program. They select best students based on their GPA and it is run through the honors program at UofL. They match your interests with a mentor in the community. My mentor was the owner of the company where I work now. I would recommend this program to others; being able to go to a top university in the US provided me with all the tools I needed to follow my dreams and be successful.

Stephanie Lievano

Subscriptions Expert, Millicom (Tigo)
 BA Communication, 2013, MS Human Resources, 2014
 Doctors Charter School of Miami Shores, 2009

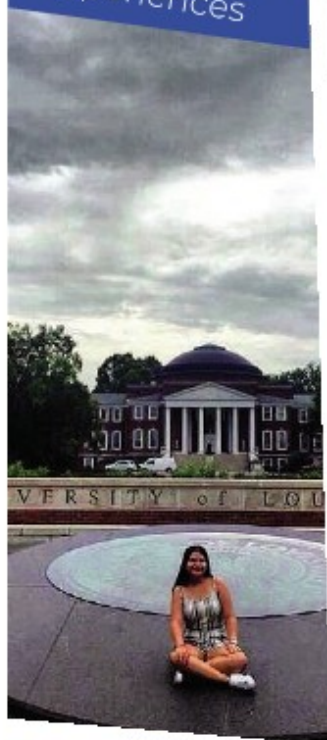

I studied a BA in Communication which I finished in 2013 and a MS in human resources, which I concluded in 2004. The reason as to why I decided to study in QLU and take the 2+2 program was because I was curious about living outside of the United States. This program was the perfect opportunity to keep on learning while being in a vibrant and exciting new culture. What I truly appreciate of this experience were the great student/professor network and also the fact that thanks to it I have many friends all over the world. That includes the unforgettable experiences such as losing my voice cheering on for the Louisville Cardinals Men's basketball team and also being a member of Sigma Kappa Sorority studying on main campus which were stepping stones for me to pick my values and create new routes to explore the world.
